

Advanced Utilities Limited

Project Profile

Astra Zeneca

Client:
Astra Zeneca

Location:
Astra Zeneca
Alderley & Macclesfield

Project Details:
External mains work
throughout the
Alderley and
Macclesfield sites

Value:
£60,000.00

Undertaking all of the external mains throughout the Alderley and Macclesfield sites. Working with the AZ project team, through the various stages of design. Close liaison with the main contractor is required throughout the site installation as heavy focus is required on programme and project delivery.

Projects varied from new fire mains and high pressure mains to one off isolations and testing etc. Working on the plant requires rigorous method statement approvals and awareness of the AZ staff and the sensitive nature of some of the projects.
